

Item No.	Product	Description	sp/op
	33080 Terrano Bark , 4 l	<i>Terrano Bark is a particularly absorbent substrate made of Douglas fir bark. For semi-damp and, in particular, for damp terraria. Moisture storage capacity controls the air humidity in the terrarium as needed. Ideal for larger reptiles and rain forest dwellers. For example for Iguana sp., Testudo sp., Physignathus sp. and Dendrobates sp..</i>	1/6
	33084 Bark , 8 l		1/3
	33089 Bark , 25 l		1/1
	33090 Terrano Terra , 4 l	<i>Terrano Terra is a ready-mixed terrarium soil for semi-damp to damp terraria. Absorbent and moisture-retaining substrate which slightly compresses in time. For all forest to rain forest dwellers. Popular with digging species. For example for Anolis sp., Takydromus sp., Mantella sp. and Pandinus sp..</i>	1/6
	33094 Terra , 8 l		1/3
	33099 Terra , 25 l		1/1
	34010 Terrano chopped beech , 4 l	<i>Chopped beech is a substrate for dry terraria. It is frequently used for keeping reptiles, especially snakes. For example for Boa sp., Elaphe sp., Testudo sp. and Thamnophis sp..</i>	1/6
	34014 chopped beech , 8 l		1/3
	34019 chopped beech , 25 l		1/1
	34020 Terrano pine bark , 4 l	<i>Pine bark, like bark mulch, is also used for semi-damp terraria, but essentially it is used for damp and tropical terraria. Ideal for larger reptiles and forest dwellers. For example for Basiliscus sp., Chondropython sp. and Phelsuma sp..</i>	1/6
	34024 pine bark , 8 l		1/3
	34029 pine bark , 25 l		1/1
	34030 Terrano chopped coconut , 4 l	<i>Chopped coconut is a light material with a high capacity to soak up moisture and therefore prevents puddles or backlogs of water. Suited above all for amphibians. For example for Agalychnis sp., Pelodyras sp. and Opheodrys sp..</i>	1/6
	34034 chopped coconut , 8 l		1/3
	34039 chopped coconut , 25 l		1/1
	34040 Terrano corn granules , 4 l	<i>Corn granules is a dust- and husk-free substrate for desert lizards, snakes and other arid-zone dwellers. For example for Mabuya sp., Python sp. and Lampropeltis sp.. Also suitable for bedding for small domestic pets.</i>	1/6
	34044 corn granules , 8 l		1/3
	34049 corn granules , 25 l		1/1
	34050 Terrano expanding humus for 8 l	<i>Expanding humus is a pressed, dry substrate block which by adding water turns into wonderful humus. Can be used for spider terraria and also as humus for plants. For example for Brachypelma sp., Avicularia sp. and Ambystoma sp..</i>	1/1
	34055 Terrano expanding humus for 1,5 l		1/1

Item No.	Product	Description	sp/op	
34060	Terrano calcium substrat natural, ø 2-3 mm, 2,5 kg	<p><i>Ideal substrate for keeping lizards, snakes and tortoises. If eaten by the pets, it is not only non-harmful but actually promotes bone growth. The calcium is of 100% organic origin. For example for Tiliqua sp., Agrionemys sp. and Phrynosoma sp..</i></p>  	1/6	
34063	Terrano calcium substrat natural, ø 2-3 mm, 5 kg		1/6	
34065	Terrano calcium substrat ochre, ø 2-3 mm, 2,5 kg		1/6	
34068	Terrano calcium substrat ochre, ø 2-3 mm, 5 kg		1/6	
34070	Terrano calcium substrat red, ø 2-3 mm, 2,5 kg		1/6	
34073	Terrano calcium substrat red, ø 2-3 mm, 5 kg		1/6	
34075	Terrano calcium substrat black, ø 2-3 mm, 2,5 kg		1/6	
34078	Terrano calcium substrat black, ø 2-3 mm, 5 kg		1/6	
34080	Terrano desert sand red, ø 1-3 mm, 5 kg	<p><i>Substrate for creating a terrarium environment for desert and sand dwellers which is identical to their natural habitat. Stimulates egg laying and natural digging activity. Without added chemical colours. For example for Pogona sp., Eublepharis sp. and Hadogenes sp..</i></p>	1/6	
34085	Terrano desert sand natural, ø 1-3 mm, 5kg		1/6	

**New: UV spotlight
from 100 watt on**

Item No.	Product	Description	sp/op
31110	Terrarium background rain forest 0,50x15m / roll	50 cm high photo background rain forest design.	1/6
31111	Terrarium background stone wall 0,50x15m / roll	50 cm high photo background stone wall design.	1/6
34090	Mexican moss fern	Mexican moss fern repeatedly turns green when water added and curls back up when dry. Ideal for savannah, steppe and desert terrariums.	1/6
34095	Terrano natural moss 26x11x20 cm	Dried natural moss without colorants for amphibians and reptiles from damp forest areas. Parasitefree.	1/6
34100	Liana, 50 to 80 cm	Aesthetic, natural terrarium decoration. Entwined to greater and lesser extents. Supplied in pack of 10, lengths between 50-80 cm, in mixed box with thin, medium and thick pieces.	10/10
34130	Flexible branch, s.s. 150 cm	Can be formed as required. Ideal climbing possibilities, e.g. for small lizards.	1/1
34105	Bamboo bars 20 pcs., 1-1,5x40 cm	Ideal climbing possibilities, e.g. for small lizards.	20/20
34110	Bamboo Cane 5x50 cm	Natural terrarium decoration. Ideal e.g. for phelsuma sp..	1/1
34115	Bamboo Cane 5x100 cm		1/1
34120	Bamboo Cane 10x50 cm		1/1
34125	Bamboo Cane 10x100 cm		1/1
35000	Cork bark 8 kg box	Ideal for turtles and for terrarium decoration. Supplied in mixed box with 8 kg of float and round pieces.	8/8

Item No.	Product	Description	sp/op
35010	Cork tubes	Approx. 60-80 cm long. Diameter: 10 to 15 cm. Mixed box of 5 pieces. Each piece labelled with barcode.	5/5
35020	Cork branches	Approx. 90 cm long, as grown. Thickness and branching depends on their natural growth. Mixed box of 15 pieces. Each piece labelled with barcode. Natural, robust decoration for bigger reptiles or snakes.	5/5
35030	Cork rear wall Burma, 2 pcs. 600x300x17,5 mm	Rolled natural cork, glued onto a 3 mm layer of pressed cork. Only to be used in dry terrariums. Supplied as a pack of two, sealed in foil. Labelled with barcode.	1/1
35040	Cork rear wall Laos, 2 pcs. 600x300x17,5 mm		1/1
35045	Cork rear wall Java 500x300x20 mm	Robust composition cork sheets. Environmentally friendly adhesion. Also suitable for damp terraria. Individually sealed in foil. Labelled with barcode.	1/1
35050	Cork rear wall Borneo 2 pcs. 600x300x3 mm	Thin composition cork sheets with interesting structure and a smooth surface. Also suitable for damp terraria. Sealed in foil as a pack of two. Labelled with barcode.	1/1
35053	Cork rear wall Sumatra 2 pcs. 600x300x3 mm		1/1
35085	Kokos Korb 1 6x11 cm	Plantable basket made of coconut fibre for terrariums.	1/1
35090	Kokos Korb 2 10x13 cm		1/1
35100	Coir mats 30x30 cm	100% natural product made of coconut fibre. Provides climbing facility for the animals. Protected against quick rotting by rubberising with natural latex. Pack contains 4 mats.	1/1
35110	Coir mats 40x40 cm		1/1
35120	Coir mats 50x50 cm		1/1

	Item No.	Product	Description	sp/op
	35125	Cocos Modul 30 30x30 cm	<i>100% natural product made of coconut fibre. Protected against quick rotting by rubberising with natural latex. Provides ideal climbing facility for the animals and can be planted with tillandsia, ferns and mosses to make a living background.</i>	1/1
	35130	Cocos Modul 40 40x40 cm		1/1
	35135	Cocos Modul 50 50x50 cm		1/1
<i>Delivery without plants.</i>				
	36255	Cave S, grey 14x11,5x6 cm <i>Available October 03.</i>	<i>Ideal possibility of retreat and hiding place for terrarium animals.</i>	1/1
	36265	Cave M, grey 26x18x9 cm <i>Available October 03.</i>		1/1
	37010	Terra-Rock 2 31x11x13 cm	<i>Decorative ceramic imitation rock. Compared to plastic, ceramic decoration has the advantage that it does not change colour if urinated on by the animals.</i>	1/1
	37023	Cactus Sahara 19 cm	<i>Artificial cactus for terrarium decoration.</i>	1/12
	37024	Cactus Kalahari 21 cm		1/12
	37025	Cactus Gobi 14 cm		1/12
	37026	Cactus Sierra madre 12 cm		1/12
	37027	Cactus Sinai 13 cm		1/12

Item No.	Product	Description	sp/op	
37028	Plant Savannengras 35 cm	Artificial plants for terrarium decoration.	1/6	
37030	Plant Tequila 7 cm		1/6	
37032	Plant Durango 28 cm		1/6	
37034	Plant Sonora 30 cm		1/6	
37036	Plant Tikal 115 cm		1/6	
37038	Plant Tulum 25 cm		1/6	
37040	Plant Merida 35 cm		1/6	
37042	Plant Palenque 45 cm		1/6	
37044	Plant Antigua 50 cm		1/6	

Item No.	Product	Description	sp/op
37045	Bamboo branch 75 cm	 Artificial plants for terrarium decoration.	1/6
37046	Plant Sternefeu 30 cm		1/6
37047	Cactus Mojave 30 cm	 Artificial cactus for terrarium decoration. Extra large.	1/6
37048	Cactus Serengeti 30 cm		1/6
37049	Cactus Sierra Nevada 16 cm		1/6
40210	Aqua-Cave S	 In the terrarium, ideal retreat, sleeping, and breeding possibility for small terrarium animals.	1/1
40215	Aqua-Cave M		1/1
40220	Aqua-Cave L		1/1
40900	Peat blocks 3 pcs., 36x9x1.8 cm	 In the terrarium, ideal for landscaping and back wall arrangements. Particularly popular when keeping marsh turtles and turtles as well as poison dart frogs.	1/12

Item No.	Product	Description	sp/op	
10870	Biotherm elec. temp.reg. terrarium	<i>Thermostat with 5°C nocturnal temperature drop. Keeps the correct biological temperature and protects from dangerous temperature fluctuations! Breaking capacity: up to 2000 Watt.</i>	1/1	
10872	Biotherm elec. temp.reg. terrarium	<i>Thermostat with 8°C nocturnal temperature drop.</i>	1/1	
10875	Biotherm elec. temp.reg. terrarium	<i>Thermostat with 10°C nocturnal temperature drop.</i>	1/1	
10890	Biotherm professional digit.temp.reg.	<i>Digitally programmable thermostat for terraria and aquaria. Time and level of nocturnal temperature drop can be set individually. Current temperature is displayed.</i>	1/1	
10925	Terra-Thermo 3 m / 15 W	<i>Waterproof heating cable for terrarium with double silicone sheath. Ideal terrarium bed heat, e.g. for reptiles and amphibians. Usable as daytime heating for ground living and nighttime heating for tree living species. VDE and CE tested. With 100 cm on-heatable cable.</i>	1/12	
10930	Terra-Thermo 4,5 m / 25 W		1/12	
10935	Terra-Thermo 6 m / 50 W		1/12	
10940	Terra-Thermo 8 m / 80 W		1/12	
37050	Sun Rock , heating stone, 18x12x6 cm, 6 W 1.380 g	<i>Well-shaped heating stone, deceivably life-like. Provides even heat distribution without hot spots. In all reptiles kept as pets, the enzymes necessary for digestion can only be produced if there is sufficient warmth. These Sun Rocks are indispensable for breaking down the undigested food in the digestive tract.</i>	1/6	
37050	Sun Cave 30x19x11 cm 3,800 g	<i>Sun cave: Heating stone and cave. Individually usable as large heating stone. Even heat dissipator. In combination, ideal hiding place for small snakes and reptiles. Cave roof radiates heat mainly upwards.</i>	1/6	

Item No.	Product	Description	sp/op
	37070 Heat Protector 15x15x25 cm <i>Available November 03.</i>	<i>Protects terrarium pets against burn injuries. Recommended for ceramic infrared heat radiators (such as Elstein) up to 150 watt and heat emitting bright radiators. Can be secured in the perforated sheet-metal of the terrarium cover using the brass thread and nut of the HOBBY ceramic holder connection set (37072).</i>	1/9
	37072 Heat resisting porcelain socket E 27 complete set, s.s.	<i>Complete set ready for assembling, consisting of 1 heatproof holder, 1 hollow screw thread, 2 washers, 2 nuts, 1 cable with switch.</i>	1/1
	37075 E 27 socket device , s.s.	<i>Heat resisting porcelain socket device for heat radiators.</i>	1/1
	37080 Elstein radiator 10T/75 60 W	<i>Ceramic infrared dark radiator for keeping reptiles and insects. Exceptionally long life of more than 8,000 operating hours. Permanently high radiation efficiency. Insensitive to water splashes.</i>	1/75
	37085 Elstein radiator 10T/75 100W		1/75
	37090 Elstein radiator 10T/90 150 W		1/50
	37095 Elstein radiator 10T/90 250 W		1/50
	37100 Thermica 21x21 cm heating mat, 8 Watt, s.s.		<i>Functions without heating wires by using a spray paint with a high metal content. Does not have to be glued in position. This means its location under the terrarium can always be changed. Ideal ground warmth for snakes, lizards and tortoises. As daytime heating for ground dwelling terrarium animals, as nocturnal heating for tree dwellers. New: Including on-/off switcher.</i>
	37150 Thermica 25x35 cm heating mat, 15 Watt, s.s.	1/6	
	37200 Thermica 30x50 cm heating mat, 35 Watt, s.s.	1/6	

Decorative: Combination suggestion HOBBY Cocos Modul with artificial HOBBY plants

Item No.	Product	Description	sp/op	
37250	HYGRO-PLUS terrarium fogger	<i>Ultra sonic fogger for increasing the humidity of both the air and the substrate in the terrarium. To protect the animals from dehydration and for covering their fluid requirement. Water is nebulized as a real mist using ultrasound technology. Automatically switches off when water level is below 45 mm. New: Including 1 splash protector, 1 replacement membrane, 1 replacement key.</i>	1/25	
37253	Replacement membrane ø 20 mm	<i>Replacement membrane for terrarium nebuliser HYGRO-PLUS.</i>	1/1	
37254	Replacement membrane ø 16 mm		1/1	
37255	Splash protector s.s.	<i>For terrarium nebuliser HYGRO-PLUS and similar models. Prevents an uncontrolled discharge of droplets from the water container through the nebuliser, thereby prolonging the time of the nebulisation.</i>	1/1	
37300	HQL 80 W	 <i>Mercury vapour spotlights for aquariums and terrariums. Bright, white light. High luminous efficiency. Good heat emission. Lamp choke necessary. Colour temperature 4,619 kelvin, colour rendition 42 Ra, luminous intensity 2,911 lm</i>	1/1	
37305	HQL 125 W	 <i>Colour temperature 5,087 kelvin, colour rendition 32 Ra, luminous intensity 5,812 lm</i>	1/1	
37320	UV Sun Lux 100 W*	 <i>UV panel spotlight for terraria. Increases activity, aids the vitamin D₃ synthesis and prevents metabolic diseases, particularly rachitis.</i>	1/1	
37330	UV Sun Lux 160 W*		1/1	

*Available November 03.

Innovative: Protects animals from burns from ceramic lamps and spotlights
